

AI-Augmented Leader Canvas

1. Mindsets I Lead With What beliefs, attitudes, and framing ideas define how you lead—with AI and with people? • What am I optimizing for? • What's changing in how I show up?	2. Tools That Augment My Thinking What AI tools are part of your current workflow? • Your go-to co-pilots and why • Favorite prompts, roles, or automation use cases	3. High-Value Activities I Want to Focus On What should you be spending more of your time and energy on? • Vision-setting, strategic decisions, coaching your team, etc. • What can only <i>you</i> do?	4. High-Value Processes to Systematize Which processes deserve structure and repeatability—with AI as a thinking partner? • Weekly reflection? • Decision journaling? • Team alignment briefings? This is your space to design your Leadership OS rituals.	5. My Decision Loops How do you think through decisions now—and where could AI help? • Simulations • Pattern recognition • Framing trade-offs
6. My Leadership Rhythms What's your current flow? • Daily clarity prompts • Weekly strategic reviews • Monthly pattern spotting How does AI support each one?			7. Where I'm Evolving Next What edge do you want to build? • What's one small shift that could unlock big clarity or momentum? • Where are you learning to lead differently—with AI?
